Points to note

Before the beginning of the restriction, drivers must immobilise their vehicles in suitable parking places at the roadside.

During the period of the restriction, foreign-registered vehicles of over 7.5t GVW or over 14m in length may not enter Slovenia, but should use the parking areas in the border zone.

In winter conditions, it is forbidden to drive combination vehicles, vehicles transporting dangerous goods, as well as exceptional loads. Even if these vehicles have the compulsory winter equipment, entry into Slovenia is not permitted while winter conditions prevail. This does not apply to vehicles

registered in Slovenia if there is a suitable parking place at the border crossing allowing these vehicles to be removed from the traffic. It is the driver's responsibility to stop at the first suitable off-road parking area until the roads have been cleared.

In the case of high winds, trucks, combination vehicles, buses and coaches are prohibited on certain road sections. These restrictions are signposted.
