

1 Short characterization:

Logistics, Purchasing, and IT are increasingly growing together. The organization of processes and value-adding chains in a cross-departmental and cross-company manner is the key to success in industry and trade.

The logistical economic magazine *LOGISTIK inside* offers commercial decision-makers in industry and trade dealing with goods and information flow a broader range of topics about the current developments in logistics, purchasing, and IT on a monthly basis.

Particular attention is given to dealing with these topics in a multidisciplinary manner by employing a competent and independent editorial staff.
