# Tiresonic RW 301

The wheel washer for perfectly clean wheels

The patented technology of the rotation cleans the rim by trillions of imploding cavitation bubbles, without using aggressive chemicals and mechanical accessories.  
Your active contribution to environmental protection!

## The benefits:

- perfect washing result
- wheels dry immediately through warm water
- simple one-hand operation
- no rework required
- cleaning up to the smallest structures
- programmable washing times

Automatic wheel spinning cone

## Specifications:

Dimensions (LxWxH)	880x1040x1800mm
Weight (without filling)	200kg
Maximum wheel diameter	810mm
Maximum wheel width	400mm
Terminal values	3x400V, 16A (slow)
Compressed air connection	p min. = 8 bar p max. = 10bar

Subject to technical changes.
