

## SPAIN - ROAD RESTRICTIONS FOR TRUCKS WITH DG & ORANGE PLATE

Every year the Traffic Department Spain, published the network itineraries for dangerous goods by road, imposing special safety measures for traffic control, during the year 2015.

For the next years (2016, 2017, etc... ) we have a new road restrictions, but for weekend (point 2) always is the same regulations and can change for bank holidays (point 3) and local holidays.

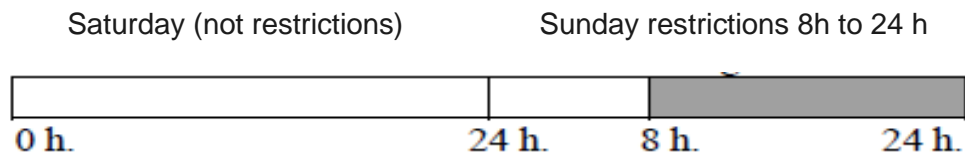

Main points for understanding, these road restrictions:

### **Chapter B.2 Dangerous goods. Trucks with Orange plate ADR**

#### **1.- All trucks with DG & Orange plate, must go by road in this order:**

- 1.1 Highways, if there are not Highways, so must choose Motorways
- 1.2 Motorways, if there are not Motorways, so must chose National roads
- 1.3 National roads

#### **2.- Weekend, Dark box, means Road restrictions for DG**

#### **3.- Bank holidays, Dark box, means Road restrictions for DG, like weekend**

##### 3.1 National Bank holidays

Festive eve

Festive

##### 3.2 Local Bank holidays

Festive eve

Festive

#### **4.- We have another road restrictions, but it is quite complicated.**

In general Point 2 and 3, there are the most important road restrictions.

#### **5.- Roads map for DG Spain**

- Highways, Motorways
- Roads

6.- Regional Road restrictions: Cataluna and Basque country

Due to these communities have assumed powers of traffic, for this reason we have another regional traffic restrictions, but it is quite similar to Spain restrictions, points 2 and 3.
