

# 2009 ADR regulated goods

## The practical guide

[eurotunnel.com](http://eurotunnel.com)

# **Contents**

## ***I – Introduction to Eurotunnel’s Policy for ADR regulated goods***

## ***II – Definition of terms used***

## ***III – List of ADR regulated goods accepted***

Class 1:	Explosive substances and articles
Class 2:	Gases: compressed, liquefied or dissolved under pressure
Class 3:	Flammable liquids
Class 4.1:	Flammable solids
Class 4.2:	Substances liable to spontaneous combustion
Class 4.3:	Substances which in contact with water emit flammable gases
Class 5.1:	Oxidizing substances
Class 5.2:	Organic peroxides
Class 6.1:	Toxic substances
Class 6.2:	Infectious substances
Class 7:	Radioactive materials
Class 8:	Corrosive substances
Class 9:	Miscellaneous dangerous substances and articles

## ***IV – What to do on arrival at the Freight Terminal***

## ***V – Eurotunnel contact details***

## ***I – Introduction to Eurotunnel's policy for ADR regulated goods***

The Channel Tunnel has been designed to be one of the safest transport systems known to date.

Eurotunnel's policy on the carriage of ADR regulated goods is therefore designed to ensure the safety of its customers and staff, and the integrity of the Tunnel. This policy has been produced in close collaboration with industry and with relevant trade and professional bodies.

The carriage of goods classified as hazardous through the Channel Tunnel must comply with ADR (European Agreement concerning the International Carriage of Dangerous Goods by Road). ADR regulated goods definitions are subject to the 2009 revision of the ADR regulations. Declarations have to be made using the 2009 ADR revisions from 1<sup>st</sup> July 2009.

Eurotunnel Freight will accept, restrict or refuse goods on the basis of ADR definitions. This ADR regulated goods policy has been decreed by a By-Law in the UK and an Arrêté Ministériel in France and forms an integral part of Eurotunnel's Conditions of Carriage.

The carriage of Dangerous Goods must also comply with Eurotunnel's own regulations as described in this document, which are more stringent than those in ADR, to reflect the specific safety characteristics of the Channel Tunnel infrastructure.

The carrier is responsible for ensuring that the goods he is carrying comply with these regulations. Furthermore it is also the carrier's responsibility to provide the compulsory documentation, including for vehicles travelling under the provisions of ADR chapter 1.1.3.6. Goods, which are transported under the conditions (packaging, weight, etc.) laid down in the respective Chapter (e.g. 3.4 – Limited Quantities and 3.5 – Excepted Quantities) of ADR are authorised for transit via the Eurotunnel Freight service, under the terms of ADR.

Eurotunnel Freight reserves the right to authorise or refuse carriage of ADR regulated goods via Eurotunnel Freight, irrespective of their type, origin and / or destination.

## ***II – Definition of terms used***

Some of the specific terminology and expressions used in the Eurotunnel Freight policy for ADR regulated goods are defined below.

### **Transport unit:**

A transport unit is:

- a lorry or a trailer;
- a container or swap body;

A lorry with a coupled trailer represents two units of transport.

In the case of a lorry with trailer, carrying two containers, then each container represents a separate transport unit.

Wherever the term “transport unit” is used in this document, it shall be construed as a “transport unit” as defined above.

### **Unit package:**

The maximum volume of a particular product carried in one and the same receptacle for transit through the Channel Tunnel.

### **Quantities:**

The quantities of goods are divided into three categories:

\* ***Carried with no restriction on quantity***

\* ***Carried subject to restriction on quantity:***

- **Product may be carried in unit packages of 250 litres or 400 kilograms:**

No restriction on the quantity carried per unit of transport but must be in unit packages of 250l or 400kg maximum.

- **Maximum quantity per transport unit:**

Carriage is only permitted on the premise that the maximum quantity per transport unit is not exceeded. The number of packages and their volume is unrestricted provided that their overall volume or weight does not exceed the limit of the relevant class for each transport unit, as shown in the list of ADR regulated goods accepted.

If several products of the same class in any one transport unit fall into the same category, the sum of all their quantities must not exceed the limit of the relevant class for each transport unit.

- **Other maximum quantities allowed:**

The authorised limit is net kilograms per transport unit unless otherwise indicated.

\* ***Not permitted***

**It should be noted that this document only describes those substances accepted for carriage, with or without restrictions (see section III of this guide). Other goods, classified as hazardous under ADR are not accepted for transit via Eurotunnel Freight.**

### **Empty Containers:**

Eurotunnel Freight will accept, without restriction, the carriage of empty containers, which would have been accepted when full. Containers, which would not have been accepted for carriage when full, must be cleaned and an “ad-hoc” certificate to this effect submitted before carriage can be authorised.

### ***III – List of ADR regulated goods accepted***

The following list details those ADR regulated goods authorised for transit via Eurotunnel Freight by their ADR Class, UN Number and packing group. Restrictions are stated where applicable.

**Please note that ADR regulated goods that do not appear in this list are not authorised for transit via Eurotunnel Freight.**

ADR regulated goods that are required to carry two or more danger labels (labels 1 to 9) are not authorised for transit via Eurotunnel Freight, regardless of their quantity. However exceptions have been made so that goods of Class 2, as specifically mentioned in the list of ADR regulated goods accepted, can be transported. Also, both UN 3291 and UN 3245 when packed in refrigerated liquid nitrogen, can be accepted for transport.

<b>ADR - Class 1: Explosive substances and articles</b>			
<b>UN Number</b>	<b>Packing Group</b>	<b>Classification Code</b>	<b>Restriction</b>
0012	n/a	1.4S	Quantity accepted for carriage restricted to 15kg of net explosive substance per transport unit  (15kg of substance not of explosive articles)  Net = not including packaging

**Substances and articles of Class 6.1 subject to two or more danger labels (labels 1 to 9) are not authorised via Eurotunnel Freight.**

Note – Items not appearing in the above list are not authorised for transit via Eurotunnel Freight

### ADR – Class 6.2: Infectious substances

UN Number	Packing Group	Classification Code	Restriction
3291	II	I3	No restriction
3373	n/a	I4	

Substances and articles of Class 6.2 subject to two or more danger labels (labels 1 to 9) are not authorised via Eurotunnel Freight, except goods with the Classification code I3 when packed in refrigerated liquid nitrogen.

Note – Items not appearing in the above list are not authorised for transit via Eurotunnel Freight

<b>ADR – Class 7: Radioactive materials</b>			
<b>UN Number</b>	<b>Packing Group</b>	<b>Classification Code</b>	<b>Restriction</b>
2908	n/a	n/a	No restriction on this type of product.
2909			
2910			
2911			
2912			Restricted solely to non combustible solids of new manufactured goods in their original packaging.
2913			Restricted solely to new manufactured goods in their original packaging.
2915			Restricted solely to non combustible solids of new manufactured goods in their original packaging.
3321			Restricted solely to non combustible solids of new manufactured goods in their original packaging.
3322			Limited to packages of which the total active quantity expressed in A2 is less than 1.
3332			

**Substances and articles of Class 7 subject to two or more danger labels (labels 1 to 9) are not authorised via Eurotunnel Freight.**

**The carriage of Radioactive Materials of Class 7 (listed above) is only authorised through Eurotunnel Freight with Eurotunnel's prior agreement.**

**Class 7 and Class 1 commodities cannot be transported together in the same transport unit.**

**For more information regarding both the restrictions on the carriage of Radioactive Materials and the procedure for gaining authorisation for transit via Eurotunnel Freight, please refer to section V of this guide (Eurotunnel contact details).**

Note – Items not appearing in the above list are not authorised for transit via Eurotunnel Freight

**Substances and articles of Class 9 subject to two or more danger labels (labels 1 to 9) are not authorised via Eurotunnel Freight, except goods with the Classification Code M8 when packed in refrigerated liquid nitrogen.**

Note – Items not appearing in the above list are not authorised for transit via Eurotunnel Freight

## ***IV – What to do on arrival at the Freight Terminal***

**All goods regulated under ADR must be declared to Eurotunnel Freight prior to transit.**

### **1 – Before arrival:**

At the location at which your vehicle is loaded, check that the driver is issued with all the necessary documentation for registering his goods on arrival at the Eurotunnel Freight Terminal (see item 4 below).

### **2 – On arrival at Eurotunnel Freight Terminal:**

The driver should follow the signs from the motorway exit to the Freight Terminal and then follow the route identified to the Freight Drivers' Information Centre.

#### **NB:**

In France – The Freight Drivers' Information Centre is located BEFORE Check-in.

In the UK – Because the Control Point is located AFTER Check-In, the driver must declare at Check-in whether he is carrying ADR regulated goods. He will then be directed to the Freight Driver Centre Control Point before where the procedure described below will be followed.

### **3 – On arrival at the Freight Drivers' Information Centre (FDIC):**

The driver should park his vehicle in one of the spaces adjacent to the FDIC building and should then report to the Customer Service Agent in the FDIC building.

### **4 – Documentation which will be required:**

The driver must give the Customer Service Agent the documents (preferably in either English or French) carrying the information required by ADR and specifically for registration of goods by Eurotunnel Freight:

- \* UN Number
- \* 2009 ADR references (Class, Packing Group and Classification Code if applicable)
- \* Name and description of goods carried, including their volume and weight
- \* Details of packaging

You are encouraged to make sure that the information required is in the driver's possession. Accurate and complete documentation will avoid delay or rejections from the system.

### **5 – Checks:**

The Customer Service Agent will check that the goods being carried comply with Eurotunnel Freight regulations, as set out in this handbook. He / she will then make an external examination of the vehicle.

Note – This examination has no bearing on possible Police or Customs examinations, which may take place before departure.

## 6 – Identification:

Once the documentation and vehicle have been checked, the Customer Service Agent will issue the driver with a label, which displays an internal reference number. The Customer Service Agent will create a file with this number as a reference.

Reference numbers will enable Eurotunnel Freight to follow the vehicle's location in the Eurotunnel freight system and hence, should the need arise, to react swiftly according to the nature of the goods being carried.

**The label issued to the driver will identify the vehicle as carrying ADR regulated goods throughout its journey via Eurotunnel Freight. It will be placed on the vehicle's windscreen in a visible position and must not be removed until the vehicle has left the destination terminal at the end of its journey.**

## 7 – Journey through the system:

Once the Customer Service Agent has authorised the transit, the driver can return to his vehicle and follow the normal route through the terminal.

**If you wish to order more copies of this guide, please refer to section V.**

### ***V – Eurotunnel contact details***
